

Black Sisters Collective group

## Walsall all around

---

So, freedom seems to be shifted.

As CCTV is looking down

Once peace, now violence due to gang rivals.

We sit in our corner.

Careful of how we roll,

In order to feel safe

Under the powers of control.

So, we delight in the past!

Life was precious and much different then,

When community meant unity,

Not segregation and use of words that offend.
